

Chris Keithley, Ph.D., is the program manager for CALFIRE's Fire and Resource Assessment Program (FRAP). Provides program oversight and has taken a lead role in the development of the 2010 Forest and Range Assessment report. Has also been involved in the development of several climate change reports for forestry. His expertise is primarily in forestry, watershed analysis, and GIS. In addition, he has experience in evaluating climate change impacts to forest resources. He received his Ph.D. from UC Davis (2009), where his research focused on evaluating cumulative effects and restoration potential in forested watersheds.
